

Leverage NIH resources

**(1) to increase your federal research portfolio;
and/or, (2) for your next NIH multi-site trial
proposal...**

NIH's National Center for Advancing Translational Sciences formed the Trial Innovation Network to address critical roadblocks in forming multi-site clinical trials. As an investigator, you have the opportunity to leverage the expertise, diversity and broach reach within NCATS' CTSA program - more than 60 unique academic medical centers nationwide.

Through the HEAL initiative, NIH supports research to enhance pain management and improve treatment for opioid misuse and addiction. To that end, the NIH will re-release RFA-NS-19-021 (UG3/UH3) on January 20, 2020 with an expected submission deadline on March 24, 2020. Through this re-release, HEAL Initiative: Pain Management Multi-site Effectiveness Research Network (ERN): Clinical Trial Planning and Implementation Cooperative Agreement (UG3/UH3 Clinical Trial Required), NIH is soliciting up to two additional ERN trials that will address specific high priorities.

Estimated Total Funding: \$800,000 total costs for FY2020; \$2,000,000 total costs per year for FY2021, FY2022, FY2023, FY2024. Note: The Trial Innovation Network will provide infrastructure including the data management system, clinical coordination, and support for trial document development such as the manual of procedures. These costs should not be included in the UG3/UH3 budgets.
