Space is limited

The Entering Mentoring seminar, developed by the Wisconsin Program for Scientific Teaching at the University of Wisconsin - Madison, engages research mentors in activities that develop effective mentoring practices. This workshop is an adaptation of that original curriculum for clinical and translational researchers.

Topics to discuss:

- **Addressing Equity & Inclusion**
- **Fostering Independence**
- **Promoting Professional Development**
- **Articulating Your Mentoring Philosophy & Plan**

REGISTRATION DEADLINE

March 11, 2019
