

Responsible Conduct of Research

Goal: To provide face-to-face training for predoctoral students, postdoctoral fellows, and early career investigators in the responsible conduct of research in order to promote ethical, rigorous, and reproducible science. This in-person series dovetails to required CITI modules and provides an opportunity for investigators to discuss all aspects of these topics with an expert in the field. This series also fulfills the requirement of multiple funding agencies

Registration Deadline: February 1st, 2019

Registration Link: <http://j.mp/2EyBVwm>

Sponsored by the Georgetown-Howard Universities Center for Clinical and Translational Science TL1 TBS Program
