

Responsible Conduct of Research GHUCCTS Workshop Syllabus

Workshop Series Coordinators

Dr. Kathryn Sandberg
 Director, Translational Biomedical Science Training Program
 Co-Director, KL2 Scholars Program
 sandberg@georgetown.edu

Dr. Dexter Lee
 Co-Director, Translational Biomedical Science Training Program
 Co-Director, KL2 Scholars Program
 dllee@howard.edu

Dr. Jason Umans
 Director, KL2 Scholars Program
 Co-Director, Translational Biomedical Science Training Program
 jgu@georgetown.edu

Goal

To provide face-to-face training for predoctoral students, postdoctoral fellows and early career investigators in the responsible conduct of research in order to promote ethical, rigorous and reproducible science. The following in person series dovetails to required CITI modules and provides an opportunity for investigators to discuss all aspects of these topics with an expert in the field. This series also fulfills the requirements of multiple funding agencies.

Tracking of your RCR Education

Participation in these sessions will be tracked and you will receive certification of attendance for individual sessions. Certification, however, will not be provided if you are late or leave early.

Workshop Location

Workshops are held via Zoom due to the COVID-19 on Thursdays from 5:30-7:30 PM. See schedule to determine location. You will be notified by email the week before with the link to the Zoom session. Please make yourself comfortable with using Zoom beforehand.

Dates and Topics

Date	<u>R</u>esponsible <u>C</u>onduct of <u>R</u>esearch Topic
March 11, 2021 5:30-7:30pm	RCR: Rigor and Reproducibility in the time of COVID Kathryn Sandberg, PhD Georgetown University

	<p align="center">Guest Speaker for Journal Club Portion: Adam Marcus co-founder, Retraction Watch (retractionwatch.com) and the Center for Scientific Integrity Managing Editor, Gastroenterology & Endoscopy News (gastroendonews.com)</p> <p align="center">Due: CITI training certificates in Good Laboratory Practice (GLP) and Good Clinical Practice Course (US FDA Focus)</p>
<p>April 8, 2021 5:30-7:30pm</p>	<p align="center">RCR: Use of Human Subjects <i>How to Write an Effective Institutional Review Board Application</i> Mary Young, MD Georgetown University</p> <p align="center">Due: CITI Training Certificates for Group 1. Biomedical research investigators and key personnel and Human research HIPPA and Human Subject</p>
<p>May 6, 2021 5:30-7:30 pm</p>	<p align="center">RCR: Informed Consent & Respect for Personhood Robert C. Speth, PhD Nova Southeastern University & Martha Gay, PhD Georgetown University</p> <p align="center">Due: CITI training certificate in Biomedical Responsible Conduct of Research – Basic Course Module: Research Misconduct) & Conflicts of Interest</p>
<p>May 27, 2021 5:30-7:30 pm</p>	<p align="center">RCR: Scientist as a responsible member of society Panel (TBD)</p>
<p>June 3, 2021 5:30-7:30pm</p>	<p align="center">RCR: Research misconduct and policies for handling misconduct Group Discussion</p> <p align="center">Due: CITI Training in Biomedical Responsible Conduct of Research – Basic Course</p>
