

Clinical and Translational Research Grand Rounds

“Alzheimer's Disease Spectrum Trials - Where Are We Now?”

Speaker: R. Scott Turner, MD, PhD

Dr. Turner is a Professor of Neurology and Director of the Memory Disorders Program at Georgetown University. His clinical and translational research focuses on prediction, diagnosis, prevention and treatment of Alzheimer's Disease and Related Dementias, including imaging and biomarker studies, mechanistic studies, and clinical trials. He will present recent research findings - including results of a randomized, double-blind, placebo-controlled, single-site Phase 2a trial of nilotinib for Alzheimer's disease (submitted for publication).

For more information on the portfolio of trials underway at the Memory Disorders Program, see <https://memory.georgetown.edu>
