

MHRI-GHUCCTS Monthly Statistical Seminar Series 2025-2026

Friday, April 17, 2026
12 - 1 PM EST | Online

Economic Analysis Alongside Clinical Trials

Randomized clinical trials often include an economic component of cost-effectiveness or cost-savings. We will look at the statistical analyses used to assess cost-effectiveness that include accounting for the variability in health resource costs. This includes the method of probability (or Bayesian) sensitivity analysis.

Paul Kolm, PhD
