

Clinical and Translational Research Grand Rounds:
**" Workforce Diversity, Education Informatics, and AI:
Challenges, Innovation, and Future Directions "**
Speaker: Toufeeq Ahmed, PhD, MS

Dr. Ahmed is an Assistant Professor of Biomedical Informatics at Vanderbilt Univ Medical Center where he is a (multiple) PI of the Artificial Intelligence/Machine Learning Consortium to Advance Health Equity and Researcher Diversity (AIM-AHEAD, <https://aim-ahead.net>), providing national leadership in AI/ML and health equity to establish mutually beneficial, coordinated, and trusted partnerships to enhance the participation and representation of researchers and communities currently underrepresented in the development of AI/ML models and to improve the capabilities of this emerging technology. He is a computer scientist with expertise in natural language processing, information retrieval, and adaptive user interfaces. As well, Dr. Ahmed developed the MyNRMN platform (<https://my.nrmnet.net>) and is co-lead of the National Research Mentoring Network (NRMN).

His talk will focus on how AI and Informatics support learners, increase researcher diversity, create mentoring networks, and reduce health disparities.

Friday, February 10th, 2023

Presentation: 12noon – 1pm

This month's talk will take place on the second Friday in February and will only be streamed online.
