

# MHRI-GHUCCTS Monthly Statistical Seminar Series 2021-2022

---

Friday February 18, 2022  
12 - 1 PM EST | Online

## Structural Equation Modeling

Structural Equation Modeling (SEM) is powerful regression modeling method that identifies relationships among observed and latent variable and whether explanatory variables are moderators or mediators of outcomes. We will discuss confirmatory factor analysis, path analysis and generalized SEM.
