ABOUT THE WEBINAR

Whether you are new to the field or looking to strengthen your understanding, this session offers a practical foundation in implementation science and how you might integrate it into your own work.

YOU WILL LEARN

- 1 What implementation science is
- 2 How it bridges the gap between evidence and practice
- 3 How to apply its principles for more effective, sustainable, and equitable outcomes

FEATURED SPEAKER

Hannah Arem, PhD

Scientific Director, Implementation Science

Associate Professor of Oncology, Georgetown University

WHO SHOULD ATTEND

All GHUCCTS researchers and clinical research team members, especially **T32 and K12 scholars** and **GHUCCTS Pilot Award awardees and applicants**.

Applying for a 2026–2027 Pilot Award? Letters of Intent are due October 28, 2026.

Hosted by the GHUCCTS Resources & Services (R&S) and Dissemination & Implementation (D&I) Science teams

Georgetown University · Howard University · MedStar Health Research Institute · Washington
DC VA Medical Center · Oak Ridge National Laboratory
