

MHRI-GHUCCTS Monthly Statistical Seminar Series 2020-2021

Friday January 22, 2021
12 - 1 PM EST | Online

Meta-Analysis: Consumer Beware!

Paul Kolm, PhD

Associate Director, Department of Biostatistics and
Biomedical Informatics, MedStar Health Research Institute

Meta-analysis combines the results of several studies to overcome small samples of individual studies and estimate a "true" effect size of some treatment, therapy, etc. There has been a substantial increase in the number of meta-analyses published in the past few years, but many appear to not understand the potential problems of the method and draw incorrect conclusions. We will examine the method, potential problems, and what can and cannot be inferred from the results.
