

MHRI-GHUCCTS Monthly Statistical Seminar Series 2020-2021

Friday October 16, 2020
12 - 1 PM EST | Online

“Statistical Significance” has no meaning: An introduction to statistics

Paul Kolm, PhD

Associate Director, Department of Biostatistics and
Biomedical Informatics, MedStar Health Research Institute

Although the p value debate among scientists and statisticians is nearly a century old, it has reached something of a crisis in the last few years. One scientific journal has banned the use of p values. A recent journal article was entitled, “Abandon Statistical Significance”. In this session, we will discuss the controversy and the implications for medical research.
