

Ethics, Regulations and Study Implementation for Research Involving Human Subjects

Co-Sponsored by
Georgetown-Howard Universities Center for
Clinical and Translational Science (GHUCCTS)

Things to Know

Time:	8:00 am to 4:00 pm
Date:	Wednesday, May 8, 2019
Place:	MedStar Health Research Institute 6525 Belcrest Road Suite 700 Hyattsville, PA 20782
Contact:	301-560-7300
Parking:	Garage A (validated ticket)

*dress and atmosphere
is business casual*

Course Goal

To provide advanced training in the methods and conduct of clinical research in a blended-learning approach with case study discussion and research staff participation.

Course Objectives

At the completion of the training, you will be able to:

- Describe the primary roles and responsibilities of the research team in a research study.
- Identify relevant content and tools needed to facilitate the implementation and conduct of a clinical research study.
- Recognize the critical elements of clinical trials, including best practice related to safety, monitoring, and human subject protection.

Agenda-at-a-Glance
