

Clinical and Translational Research Grand Rounds:
"Mechanisms and targeted therapies for preeclampsia"

Speaker: S. Ananth Karumanchi, MD

Dr. Karumanchi is Professor of Medicine and Medallion Chair in Vascular Biology at Cedars-Sinai Medical Center.

His basic, translational, and clinical research, which has been supported by the NIH (NHLBI, NIDDK, NCI), AHA, HHMI, and Gates Foundation among others, focuses on pathogenic mechanisms and the development of novel diagnostic and therapeutic approaches to hypertensive disorders in pregnancy and chronic renal disease.

His talk will focus on the role of endothelial growth factors in the pathogenesis of preeclampsia and understanding the implications of these mechanisms for the diagnosis, prevention, and treatment of preeclampsia and related hypertensive disorders.

Friday, October 7th, 2022
Presentation: 12noon – 1pm

With ongoing accommodations to the pandemic, this month's talk will again only be streamed online.
